bw PACKAGING HAYSSEN

VERTICAL FORM-FILL-SEAL

HAYSSEN LOGIC
VFFS BAGGER

An intermittent-motion vertical form-fill-seal bagger engineered for easy operation and reliable performance.

APPLICATIONS / INDUSTRIES:

- Dry Snacks
- Chips
- Nuts
- Cookies
- And More

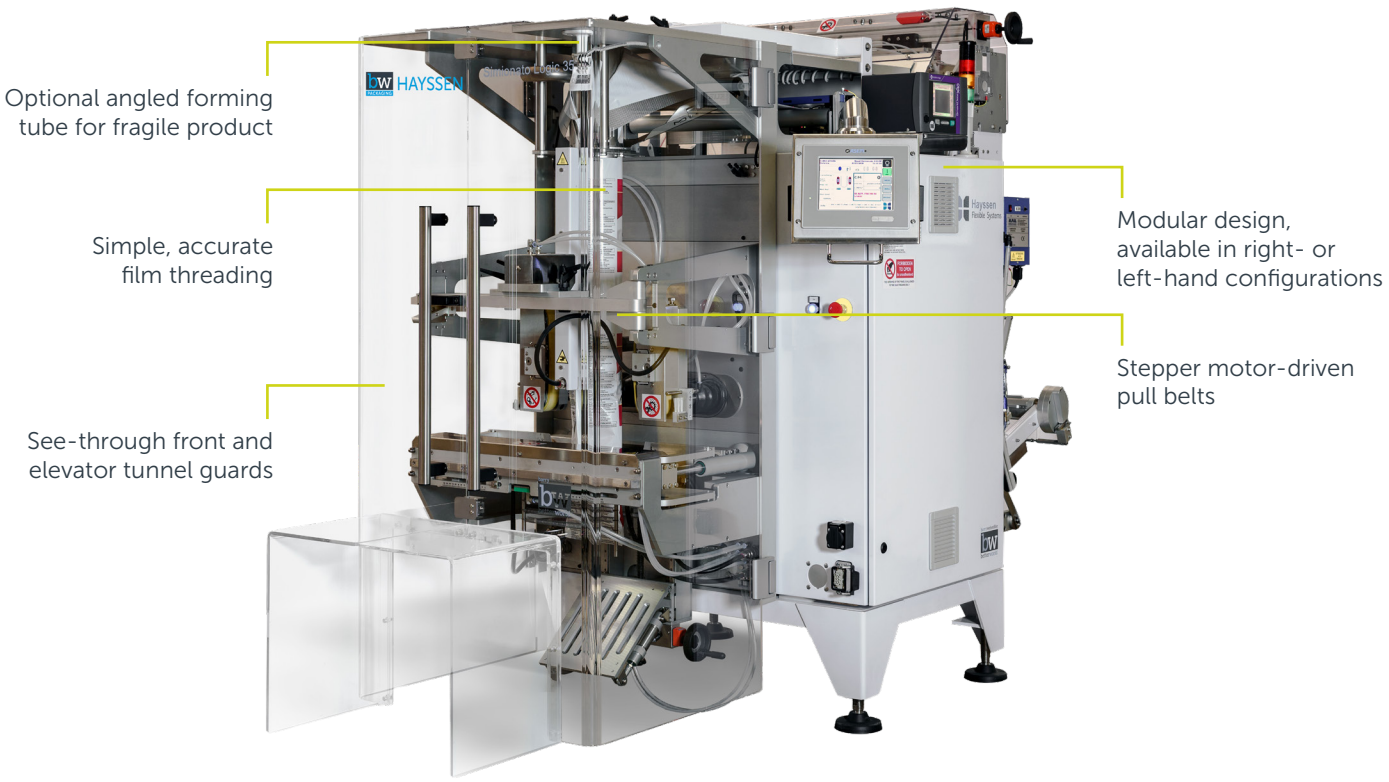

WHY CHOOSE THE **HAYSSEN LOGIC?**

BUILT WITH QUALITY. **BACKED BY LIFETIME SUPPORT.**

Robust Operation — Modular for fast changeovers, flexible for diverse applications, and available in right- or left-hand configurations.

Benefit-Driven Features — Simplified threading, non-slip pull belts for consistent film control, and impulse jaws that help keep products out of the seal.

Reliable Performance — Decades of proven performance and dependability, with lifetime support for parts, upgrades, and service.

CONSISTENT | PROVEN | SEAMLESS INTEGRATION

Designed for dry snack applications such as chips, cookies, crackers, nuts, and confectionery products, the Hayssen Logic is a quality entry-level vertical form-fill-seal bagger that combines simple operation, dependable performance, and exceptional value. Its compact, flexible design makes it an ideal solution for manufacturers seeking proven packaging technology without unnecessary complexity.

More than an operator-friendly bagger, the Logic is engineered for reliable operation and simplified maintenance. Precise film handling helps ensure consistent bag quality, while its versatile design supports a variety of products and package styles. Backed by Hayssen's lifetime support, the Logic delivers the confidence and long-term performance needed to keep production running smoothly.

By seamlessly integrating the Hayssen Logic with upstream and downstream equipment, we deliver a cohesive, performance guaranteed packaging system—expertly led by our project management team to provide a turnkey solution for your operation.
