

HAYSSEN ULTIMA VFFS BAGGER

An intermittent-motion vertical form-fill-seal bagger engineered for flexible operation, proven performance, and simplified, reliable production.

APPLICATIONS / INDUSTRIES:

- ✓ IQF
- ✓ Produce
- ✓ Rice
- ✓ Beans
- ✓ And More

WHY CHOOSE THE HAYSEN ULTIMA?

BUILT FOR PERFORMANCE. BACKED BY LIFETIME SUPPORT.

Robust Operation — Modular, configurable design for a wide range of applications.

Benefit-Driven Features — Simplified threading, consistent film control, and a stager that keeps products out of the seal.

Reliable Performance — Decades of proven performance and dependability, with lifetime support for parts, upgrades, and service.

FLEXIBLE | PROVEN | SEAMLESS INTEGRATION

Designed for a wide range of applications across thousands of factories, the Hayssen Ultima delivers proven performance and long-term reliability—built on decades of trusted Hayssen engineering.

More than an operator-friendly bagger, the Ultima is built for the long haul. Its modular design, simplified operation, and precise film control ensure consistent, high-quality bags, while Hayssen’s lifetime support provides parts, upgrades, and service when you need it—keeping your line running year after year.

By seamlessly integrating the Hayssen Ultima with upstream and downstream equipment, we deliver a cohesive, performance guaranteed packaging system—expertly led by our project management team to provide a turnkey solution for your operation.

Specifications			
Motion Type	Intermittent	Zipper Applications	Transverse
Production Speed	Up to 100 bpm	Cleaning	Painted: Wipe Down Stainless-Steel: Wash Down
Max Flat Bag Width	8-16 in/203-406 mm	Electrical	380-480V, 3Ph
Bag Styles	Pillow, Gusset, Block Bottom, and more	HMI	Panel View
Compatible Films	Low-Density Polyethylene, Laminate, Paper, Recyclable	Integrations	Upstream and downstream equipment
